

RUSIRU IMANJAYA DEVINDA

Intern/ Trainee SE

rusirud49@gmail.com | +94 71 143 1969 | Colombo, Sri Lanka | Portfolio | LinkedIn | Github

SUMMARY

Software Engineering undergraduate with hands-on experience as a Intern/ Trainee SE building scalable web applications using Node.js, React, and Golang. Strong foundation in REST API development, microservices, and cloud technologies. Familiar with Agile development, Git version control, and unit testing practices. Passionate about learning new technologies and contributing to high-quality software solutions in collaborative team environments.

TECHNICAL SKILLS

- Languages & Frameworks: JavaScript, TypeScript, Go (Golang), Java, Python, React, Node.js, Express.js, Gin, Fiber
- Web & Backend Development: REST APIs, Microservices Architecture, Web Frameworks, API Integration
- Cloud & DevOps: Docker, Kubernetes, Cloud Deployment (GCP), CI/CD
- Databases: MongoDB, PostgreSQL, MySQL
- Tools & Practices: Git (Version Control), Agile Development, Unit Testing, JWT, RBAC
- Professional Competencies: Creative Thinking, Problem Solving, Client Satisfaction, Team Collaboration

WORK EXPERIENCE

TRAINEE SOFTWARE DEVELOPER

DDS Techvira | Feb 2026 – Present

- Developed and maintained scalable backend systems using Node.js and Express.js, improving API response efficiency through optimized data handling with PostgreSQL and MongoDB.
- Built and tested 10+ RESTful APIs for client-server communication, ensuring high performance and client satisfaction across all technical deliverables.
- Implemented secure authentication and authorization protocols (JWT, RBAC) and integrated Unit Testing to ensure robust security and code reliability.
- Collaborated in an Agile team environment, applying creative thinking and problem-solving skills during two-week sprints and peer code reviews to meet rapid development cycles.
- Utilized Git for high-level version control and team collaboration, maintaining clean branching strategies and deployment success rates within the monorepo.
- Contributed to cloud-based deployments using Docker, Kubernetes, and Cloud Technologies (GCP), automating containerized workflows for improved system scalability

PROJECTS

Cloud Native Healthcare Platform (Microservices System) | GITHUB

Technologies used – Go (Golang)/Gin, PostgreSQL, RabbitMQ, Docker, Kubernetes, Nginx, JWT, Ngrok, React, Typescript

- Designed and developed a microservices-based healthcare platform using Golang, improving scalability and service isolation
- Implemented event-driven architecture using RabbitMQ to enable asynchronous communication between services
- Developed secure REST APIs with JWT-based authentication and role-based access control (RBAC)
- Applied database-per-service architecture to enhance data independence and system performance
- Used Docker to containerize applications in a cloud-native environment, improving development consistency, portability, and scalability.

AI-Powered eBook Creator Web Application | GITHUB | LIVE

Technologies used – Node.js, Express.js, MongoDB, JWT, Bcrypt.js, Cloudinary, Hugging Face, Mistral AI

- Built a full-stack AI-powered web application using React and Node.js for automated content generation
- Designed and implemented 12+ RESTful API endpoints for user management, content generation, and data processing
- Integrated AI APIs (Hugging Face, Mistral AI) to generate dynamic and personalized eBook content
- Implemented secure authentication and password encryption using JWT and Bcrypt.js
- Designed an optimized MongoDB database schema for efficient data storage and retrieval
- Deployed the application with cloud-based services and managed media using Cloudinary
- Used Git for version control and collaborative development in an Agile environment

EDUCATION

BSc (Hons) in Information Technology - Software Engineering

Sri Lanka Institute of Information Technology (SLIIT)

GPA - 3.27

05/2023 - 05/2027 (Expected)

GCE Advanced Level Examination

2021/2022

Stream - Physical Science

Ananda College, Colombo 10

CERTIFICATIONS

Software Engineer Intern Certificate | CERTIFICATION

HackerRank, Issued Dec 2025

JavaScript Essentials 1 | CERTIFICATION

Cisco Networking Academy, Issued Dec 2025

AI/ML Engineer - Stage 1 | CERTIFICATION

Centre for Open and Distance Education, Faculty of Computing - SLIIT, Issued July 2025
